Thanks for the suggestion. I have searched in vain for the S4... files and they don't appear to be loading onto the computer. Perhaps that is the problem. When I go into Word (not PASAT) to look at the templates, only the EFS template is available.

Perhaps tomorrow I will try copying the templates from another computer to see if that works. In the meantime, it is getting late.

BTW, for more information on e-filing in Canada, see

https://strategis.ic.gc.ca/sc_mrksv/cipo/patbrev-filing/application/engdoc/pt_filing_form-e.html

They allow applications to be filed in TIFF or PDF format.

Jonathan---

This sounds like the template/add-in issue. Please see post reproduced after my signature line, below. Others have also described this undocumented (i.e., by PTO) but very fundamental issue -- if you hunt through past posts to the list you should be able to find them.

Hope this works,

---Gerry
