Schedule of Selected Fees
for responding to Office Actions in Madrid Protocol cases
for trademark firms outside of the United States

All amounts are in US dollars

Government fees as of October 2009

Service	Attorney's Charges
Monitoring your recently filed Request for Extension of Protection into the United States and making best efforts to let you know by email when USPTO has mailed an Office Action to you, so as to reduce the risk of your Request being abandoned for failure to respond to the Office Action, all without establishing an attorney-client relationship	none
Assumption of responsibility for Request for Extension of Protection into the United States, including docketing of future due dates and appointment as Domestic Representative, and including response to Office Action to correct minor formalities. (does not include responses to any additional Office Actions) (includes \$15 postage with delivery confirmation to send Certificate of Registration to you, credited to future invoices due if the application does not reach registration)	250+10+15
Assumption of responsibility for Request for Extension of Protection into the United States, including docketing of future due dates and appointment as Domestic Representative, and including response to Office Action to correct identification of goods and/or services (does not include responses to any additional Office Actions) (includes \$15 postage with delivery confirmation to send Certificate of Registration to you, credited to future invoices due if the application does not reach registration)	350+10+15

Service	Attorney's Charges
<p>Assumption of responsibility for Request for Extension of Protection into the United States, including docketing of future due dates and appointment as Domestic Representative, and including response to Office Action in response to Examiner's views regarding on likelihood of confusion or descriptiveness.</p> <p>(does not include responses to any additional Office Actions)</p> <p>(includes \$15 postage with delivery confirmation to send Certificate of Registration to you, credited to future invoices due if the application does not reach registration)</p>	500+10+15

Effective October 2009

The professional fees listed here are based upon these assumptions:

- that we are dealing with a trademark firm outside of the United States, and that the trademark firm in turn serves its client
- that our invoices are paid to us promptly by the trademark firm (less than one month) even if the client has not yet paid the trademark firm's invoice
- that we are paid the full amount of an invoice (all bank wire fees paid by you and not charged to us)
- that you provide requested information, instructions, and documents promptly, by email or fax.
- that Oppedahl Patent Law Firm LLC does not need to ask repeatedly for information, instructions, or documents.
- that papers requiring signature by the applicant are signed electronically, not by fax or on paper
- that papers requiring signature are signed and returned to us promptly.
- that in cases where Oppedahl Patent Law Firm LLC asks to be paid in advance, that the advance payments are made promptly.

When these assumptions are not satisfied, the professional fees charged will be greater than those listed here.

Special rates are available for firms with which we have long-standing relationships.

Most of the professional fees listed above include a \$10 amount to cover what our bank charges us to receive a wire transfer. If two or more professional fees are being paid in the same wire transfer, the second and additional \$10 amounts may be deducted from the total. If you pay us by means of a check drawn on a US bank and denominated in US dollars, then this \$10 amount may be deducted from the total.

Please note that if your wire transfer to us is received at less than the dollar amount of our invoice (for example due to currency conversion or because you have instructed your bank to charge the wire transfer fees to us), then we will expect you to pay the rest of the balance.
